

## TV Sports News

### 1 Creativity

Imagine you are going to create a TV Sports News program. You need at least five sections:

- 1 Introduction (flash news, headlines)
- 2 Summary of news (soccer, baseball, etc.)
- 3 Advertisements
- 4 Interviews
- 5 Conclusion (something fun)

Get into groups. Make sure there are five groups in total. Decide which group is going to focus on which section of the program.

Brainstorm with your group the content of your section. What can you talk about? What do you need to prepare it?

### 2 Communication

In your group, write down the script for you section. Try to give everyone in your group a speaking part.

### 3 Critical thinking

Find props (things to use in your program), posters and written material for your section of the show.

Rehearse with your team. Use visuals or props in order to make it more realistic

### 4 Collaboration

If possible, use a video camera or a phone to record your TV program.

Give your program a name and start broadcasting your TV Sports News program!

### 5 Evaluation

- 1 How did each group perform? \_\_\_\_\_
- 2 Did it look like a real TV show? \_\_\_\_\_
- 3 Did everyone talk? \_\_\_\_\_
- 4 Which was the best section? Why? \_\_\_\_\_
- 5 What part did you play? Did you enjoy it? Why or why not? \_\_\_\_\_
